SENSORS

NewPing

V1.9.7

 Tim Eckel

 Tim Eckel

NewPing allows interfacing with ultrasonic sensors simple, fast & powerful. Initially, I was not happy with how poorly ultrasonic sensors performed. I soon realized the problem was not the sensor, it was the available ping and ultrasonic libraries causing the problem. The NewPing library totally fixes these problems, adds many new features, and breathes new life into these very affordable distance sensors.

[Compatibility](#)

[Releases](#)

This library is compatible with the **avr**, **arm**, **megaavr**, **esp32** architectures.

Compatibility with an **architecture** means that code **can be compiled and uploaded** to a board from the list below:

Samd	MegaAVR	AVR	Mbed
Arduino	Arduino	Arduino	Arduino
MKR	Uno WiFi	Micro	Nano 33
1000	Rev 2	Arduino	BLE
WiFi	Arduino	Leonardo	Sense
Arduino	Nano	Arduino	Arduino
MKR	Every	Mega	Nano 33
WiFi		Arduino	BLE
1010		Nano	Arduino
Arduino		Arduino	Nano
MKR		UNO	RP2040
FOX		Arduino	Connect
1200		Yún	
Arduino			
MKR			
WAN			
1300
